Figure 1

The figure shows the data for different groups. The x-axis represents T1, T2, and T3, and the y-axis represents the values ranging from 0 to 1000. The groups are categorized into All, Men, and Women.

- **All**: The data points are similar across T1, T2, and T3.
- **Men**: The data for Men shows a slight increase in T2 compared to T1 and T3.
- **Women**: The data for Women shows a more significant increase in T3 compared to T1 and T2.

Additional symbols are used to indicate significant differences: * indicates a significant difference, and † indicates a trend towards significance.
